

America is swimming in dangerous Muslim waters

[Washington Times, Letter to the Editor](#), August 12, 2026

Daybreak marks the first of five times a day that an amplified Muslim call to prayer goes out to wake up a sleepy city, and it happens year around.

Is this in the Middle East somewhere? Could it be a European country?

Nope; It's Minneapolis, Minnesota, and Dearborn, Michigan, to name just two.

Islam is now in America. And what, you might ask, is preached in the mosques during these prayers?

A search of a small portion of the Quran holds the answer.

Quran 2:191: "'Slay the nonbelievers' wherever you find them"

Quran 3:28: "Do not take disbelievers as friends."

Quran 5:33: "Maim and crucify the infidels if they criticize Islam."

Quran 8:12: "Terrorize and behead those who believe in scriptures other than Quran."

Quran 9:123: "Make war on the infidels living in your neighborhood."

Quran 9:5: "When the opportunity arises, kill the infidels wherever you find them."

Quran 47:4: "Do not seek piece with the infidels, behead them when you catch them."

Quran 9:30: "Jews and Christians are perverts, fight them."

Lebanon, Syria, Iraq, Jordan, Turkey, Egypt, Libya, Tunisia and Algeria were once Christian countries. Today they are Muslim and Christians in the Middle East are second-class citizens at best.

How long will it be until your granddaughters are forced to wear hijabs? When will American males be required to wear kufi caps? When will Shariah law replace the Constitution?

Wake-up, American voters. We are swimming in very dangerous waters.
